

**ZAPATA™**  
**FlyRide™**

**A flying personal watercraft featuring the all new EZ-Flight Control System™**

The Zapata FlyRide™ is designed to make hydroflight accessible for beginners and offer new thrills for extreme riders. It achieves this by combining the familiar form and controls of a personal watercraft with Zapata's latest advancements in computer aided flight control and gyro stabilization - the same technology developed for Zapata's groundbreaking Flyboard Air™ and EZ-Fly™ jet powered craft.

**Key Features**

- Handles just like a flying jet ski®.
- The first hydroflyer on the market with intelligent flight control and stabilization.
- Multiple flight modes for beginners and advanced riders seeking extreme thrills.
- Takeoff and land on the beach.
- Supports up to two riders.
- Designed to be the perfect addition to Flyboard® and jet ski® rental centers.

**Rider Capacity**

**Weight Capacity** 200 kg\* / 440 lbs\*

**Ages** 6 and up

\*On a 300 HP jet ski®

**Stealth Grey / Zapata Red**

**Specifications**

**Speed** Max 35 kph / 22 mph

**Length** 172 cm / 68 in

**Height** 90 cm / 35 in

**Width** 75 cm / 30 in

**Weight (Dry)** 33 kg / 72 lib

**Battery Life** 7 hours

**EZ-FCS: EZ-Flight Control System™**

Zapata has made history in the world of personal aviation with the development of advanced stabilization systems utilized in the groundbreaking Flyboard Air™ and EZ-Fly™ personal aviation platforms. Zapata will now change the world of recreational water sports by applying that same technology to hydroflight. This convergence of Zapata's engineering and software innovation is what will set FlyRide and Zapata apart from its imitators and bring the joy of hydroflight to wider audiences.

**Intelligent Flight Assistance**

- Gyroscopic balance assistance makes the FlyRide™ the most stable hydroflyer ever made.
- Automated take-off.
- Automated barrel rolls at the push of a button.
- Handlebar vibration feedback signals when automated maneuvers are enabled.

**From Easy to Extreme**

1. Child Mode (6 and up)\*
2. Beginner Mode
3. Intermediate Mode
4. Advanced Mode

\*Child mode allows an adult to remotely control the FlyRide™ using a wireless EMK (sold separately)
